### **Here are some important things to remember when building.**

Please, do not make any new scrolls or spellbooks at this point.

Try to only put one really awesome, tricked out item in each area.

If you want to be able to pick up an item remember to use the take flag. Oedit the item and type take. Certain items don't get the take flag. These include chests, portals, and all things u want to stay firmly attached to the ground.
